Dear Mr. Pargman:

Thanks so much for the large, framed picture depicting your worthwhile cause, "Save the Earth." I hope you will thank others involved, as well as the cast of "The Young and the Restless," for their efforts to help in the important campaign of protecting our environment. You are absolutely right, we can make a difference if all of us will work together to help make our world the best it can be, not only for our present generation but those that will follow. Best wishes.

Very truly yours,
